RE: Men's & Women's Basketball Game Day Parking at Rutgers Athletic Center

Dear Scarlet Knights Fan,

Thank you for your purchase of Rutgers basketball tickets. We are looking forward to an exciting season.

As you may already know, the Livingston Campus is undergoing significant changes and at the forefront are several large construction projects. While these changes have created a great deal of excitement within the Rutgers community there will be some short term growing pains that will affect all of us on basketball game days this season. Primarily, the changes we experience will be the result of reconfigured parking lots and traffic patterns, most notably:

- Rockafeller Road is closed but could open for general parking access on game day.
- All traffic in and out of the RAC for season parking permits to Scarlet, Green and Yellow lots will run through Hospital Road; and
- Construction has significantly reduced the number of parking spaces in the Scarlet and Green lots. Additional spaces have been added in the Yellow lot to make up for the other reductions.
- Parking lots will be filled in order, front to back. Attendants will be on site to direct you to your space.

As with any construction project, additional alterations may be forthcoming. For the most up-to-date information on the construction project, road closures and parking changes, please regularly visit <http://visionforlivingston.rutgers.edu/> and/or [www.scarletknights.com](http://www.scarletknights.com).

We appreciate your patience and understanding while Livingston Campus undergoes this exciting metamorphosis. While these changes may cause you to alter your traditional game day routine, we will do all that we can to keep your game day experience as convenient and enjoyable as possible.

Thank you,

-Rutgers Athletics
